## Sponsorship Opportunities

CSG West offers unparalleled opportunities for our private sector partners to support the mission of the organization and engage with regional and national leaders. Financial contributions from our generous sponsors help advance CSG West's goals to strengthen western legislative institutions and the promotion of regional collaboration and best practices in state government. The Annual Meeting will bring together hundreds of state legislators, staff, and partners from across the West to discuss and share insights on policy issues affecting the region, learn from dynamic speakers and network with colleagues.

Your investment is important to our organization's success as it allows us to develop programming that helps lawmakers become stronger community and state leaders, and bring them together to promote regional cooperation.
